

Orion Mobile App

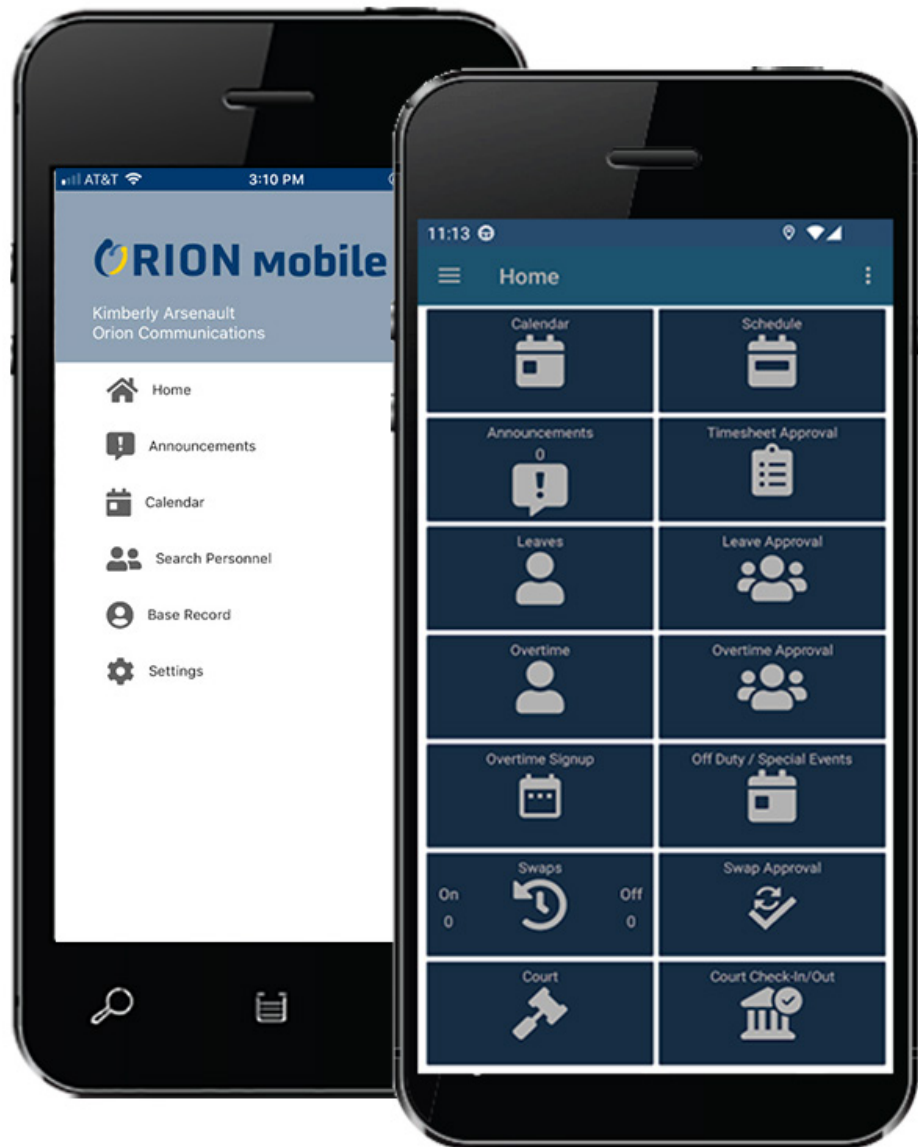

Connecting Your Workforce Anytime, Anywhere

The Orion Mobile App provides registered users the convenience of Android or iOS mobile access to their Workforce Management PLUS or CourtNotify account. It's ideal for employees to easily manage their scheduling and administrative tasks while on the go.

When used with Workforce Management PLUS, public safety users view their schedule and all scheduled events, such as time-off, overtime, training and court events. They can enter leave, overtime, and shift swap requests ... view and sign up for off-duty or special events ... or volunteer for ad hoc OT assignments. Administrative tasks can be achieved, such as viewing agency announcements or routing their timesheets for approval.

Supervisors can quickly search for and call other employees to backfill vacancies. Employee requests can be reviewed and responded to in real-time. Special events can be assigned individually or in bulk. Employee's time worked can be authorized for payroll processing.

When used with CourtNotify, officers receive their court notifications with logistical and defendant information in real-time. Once received, easy confirmation acknowledgments are saved and viewed by all CourtNotify users. Geofencing can be used to track courthouse check ins/outs by officers.

Authorized Control

- » Usage authorization controlled by authorized agency personnel
- » Enables agency to add, remove and/or return personnel to mobile usage
- » App downloaded via iTunes (IOS) and Google Play Station (Android)

Fast Mobile Data Returns with Reduced Security Risks

- » Uses Microsoft Azure Government Services with no personnel data saved in the cloud
- » Only housed data is a mobile user name, password, and agency code
- » All other data processed but not stored

Valuable Results for Employees, Supervisors, and Administrators

- » Real-time schedule viewing
- » Time-off, overtime, swaps, special events, timesheets, and court event self-services
- » Push notifications for scheduling changes, requests and more
- » Geofencing for court check in/out tracking
- » Supervisory approval management
- » Increased workforce oversight and management efficiencies for supervisors
- » Real-time updates viewed within Workforce Management PLUS or CourtNotify
